

KSTM
5th Grade Courses 2021-2022

Math 5 (040031 / 040032)

This course covers the 5th grade mathematics content standards. Students will work with whole numbers, decimals, and fractions, study metric and standard measurement systems, learn geometric concepts, interpret and analyze data, and develop and solve equations and real-life problems.

This course meets for a full block every day all year.

English Language Arts Grade 5 (010051 / 010052)

This course supports student mastery of fifth grade language arts standards and focuses on development and application of skills in grade level reading, writing, speaking, listening, and multiple literacies. Students will read a variety of literary and informational texts and write in a variety of modes using numerous tools and organizational frameworks. Students will also learn appropriate and safe use of digital tools related to research. *This course meets for a full block every day all year.*

Science 5 (060081 / 060082)

This course continues the standards of scientific inquiry as well as the integration of unifying concepts and processes in science experiences. In this course the emphasis will be focused on energy in Earth's systems, force and motion, energy, heredity, and flow of matter and energy in ecosystems. Students will be taught in a fully equipped science lab. This course will integrate electronic media and communication skills in its content.

This course meets for a full block every other day all year.

Social Studies 5 (035011 / 035012)

This course will include the study of the historic period of early peoples in the United States to the Constitution. The course will integrate the following content standards throughout the school year: culture, history and geography, economics, citizenship and government. This course will integrate electronic media and communication skills in its content. *This course meets for a full block every other day all year.*

Physical Education 5 (070131 / 070132)

This course is designed to include a wide variety of sporting activities and teach the qualities of sportsmanship, competition and fitness. It includes learning the rules and regulations for the major sports of volleyball, wrestling, basketball, soccer, and track and field events. Students also participate in a variety of leisure and lifetime activities including badminton, aerobics and more. Students do not dress out for PE but need to have appropriate foot wear. *This course meets for a half block every other day for the whole year.*

Computer Applications 1 (130001)

This middle-level course is designed to emphasize digital citizenship, basic computer operations, word processing applications, spreadsheet applications, presentation applications, and technology communication tools. Students will master keyboarding skills; compose, create, edit, and format word processing documents; organize and manipulate data in a spreadsheet; and prepare a formal presentation. *This course meets for a whole block every other day for a semester.*

STUDENTS WILL CHOOSE ONE ELECTIVE OPTION

Art 5 (115019)

This course examines the chronology of American art from the vantage point of societal influences on art and art's influence on culture. This course places an emphasis on creating art that expresses ideas from American styles or schools of art. Enduring understandings and ideas include: Art is an instrument to promote awareness; Artistic exploration leads to innovation; Art records change in society; Critical processes identify influences; and Art documents interactions between humans and their environment. *This course meets for a full block every other day for a semester.*

MS Exploratory 5 (260141)

Project based course covering the scientific/engineering process. Students will work individually and in teams to complete projects using Science Technology Engineering Art and Math, including presentations. *This course meets for a full block every other day for a semester.*

STUDENTS WILL CHOOSE 1 OF THE FOLLOWING PERFORMING ARTS OPTIONS

General Vocal Music 5 (195051)(195052)

In this course fifth grade students will explore music as part of everyday life, including studying various styles, understanding musical elements and experimenting with aspects of performance.

This course meets for a half block every other day for the whole year.

Beginning Band (195031/195032)

This course is offered to students who have demonstrated an aptitude for and interest in instrumental music. Beginning instrumental technique and appropriate musical understandings are introduced through "method" studies and selected band arrangements. Students will need to secure their own instruments so that home practice is possible. Changeover instruments may be provided by the school district. Performance may be included as an extension of classroom activities. *This course meets for a half block every other day for the whole year.*

OR

Beginning Strings (190701/ 190702)

This course is a beginning ensemble for fifth grade students who wish to learn to play a string instrument (violin, viola, cello or bass). Bowing technique, note and rhythm reading, and basic music concepts will be introduced through method studies. Performances will be required. *This course meets for a half block every other day for the whole year.*

Students who qualify for English Language Learner services will enroll in the following courses, based on level.

ESL Reading A – (153241/153242)
